Attachment 3

25X1A

Jet Plane Observed in Chiralovskaya

Legend:

Length: About 9 meters, wing span about 7.5 meters, diameter of fuselage 1.8 to 2 meters, take-off ground run: 250 to 300 meters. The plane would take-off as if catapulted, a cloud of black smoke would emanate from the exhaust, this cloud disappeared when the plane lifted off the ground. The plane was fitted with one weapon on each side of the nose. The guns, which projected about 80 centimeters from the plane, had a caliber of about 30 mm.
